Institution-Set Standard Data – Learning Area Reflection and Analysis

2020-21 Academic Year

Learning Area: _____

Date of Review: _____

WHC Coalinga has set a three-year review cycle for Institution-Set Standards. ISS and stretch goals were reviewed and revised in 2019-20 in line with the College's three year ISS Review Cycle (see diagram below). For 2020-21 the college is back to **Year One** of the cycle, where ISS and stretch goals will be reviewed and assessed against current data.

Each Learning Area should discuss **its own Learning Area data** in relation to college wide data and the Institution-Set Standards and stretch goals, and complete this reflection and analysis report.

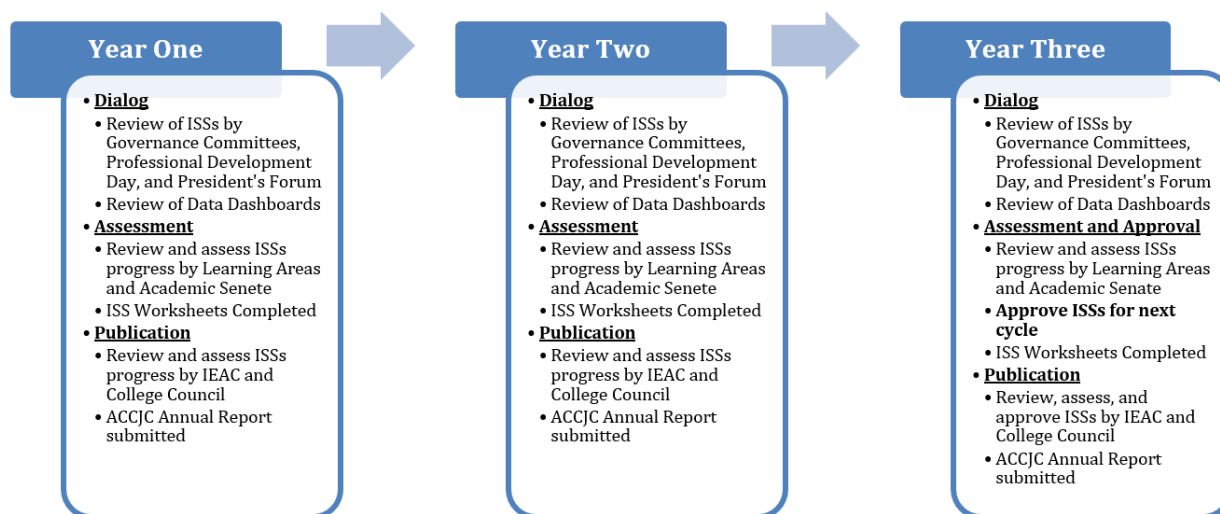

Questions to consider when reviewing and analyzing Institution-Set Standard data:

- Are existing standards and stretch goals too low or too high to be meaningful?
- How do the ISS and stretch goals relate to institutional priorities goals?
- Are the goals and standards relevant to student achievement within your Learning Area?

Institution-Set Standards are minimum levels of acceptable achievement and are used to monitor institutional performance.

Stretch Goals challenge institutional performance by serving as aspirational, long-term goals.

Job Placement Rates

Definition: Job placement rates for CTE programs with consistently more than ten completers at WHC Coalinga. Based on employment one year (four quarters) after last enrollment at WHCCD. Primary source of job placement rates is the CTE Launchboard which relies on California’s Employment Development Department’s Unemployment Insurance data of students who completed a WHCCD CTE program to determine employment. Data may vary slightly from previous years’ reports due to changes in Launchboard definitions and methodology.
